Business World Hottest Young Entrepreneur
Economic Times Power of Ideas.

Offices at:

Ahmedabad | Gurgaon | Bangalore

Quoted In:

Business Dailies: Business Standard | Economic Times
Business Magazines: Business India | Forbes India
Industry Journals: Power Line | Energetica

Owner's Engineer:

As Owner's Engineer, we guide our clients or investors through the complete process of project feasibility, financial closure, bid process management, vendor finalization and supervision of project execution up till successful project commissioning which meets our strict quality criteria.

Lender's Engineer:

Being consultants to some of the leading lending institutions in the country, we assess the key parameters impacting the returns from the project like generation, cost and conditions of the EPC Contract, preparedness of Project Developer for execution etc.

Detailed Engineering and Vetting of Drawings:

Gensol Solar Division is staffed with experienced Electrical, Electronics, Mechanical and Civil Engineers who undertake detailed engineering of Solar PV Power plants on behalf of EPC Contractors and vetting of drawings for Project Developers and investors.

Pre Feasibility Analysis and Bidding Assistance:

Every solar power policy is different in terms of eligibility criteria, method of allocation, allowed location of project etc. Gensol's engineers and analysts help Project Developers select the sites most suitable for setting up solar power projects, assist in price discovery for securing allocation in cases of reverse bidding and in documentation to be submitted for the same.

Detailed Project Report:

A Detailed Project Report is one of the most important documents to assess the feasibility of project and to get financial closure. Gensol with its sector expertise and established standing in the renewable energy consultancy not only gives the most exhaustive analysis of the project but also enjoys the confidence of industries, investors and banks alike.

EPC Services:

Developers choose to reduce business risk in site analysis, system design, project financial feasibility, product selection, construction execution, procurement, and on-going monitoring and support services by taking the these services which help them in faster and easier execution of the project.

Gensol Consultants is an exclusive Advisor to Corporates, Financial Institutions, Governments.
